

Ilgar Mirzoiev

Junior Researcher

B. Verkin Institute for Low
Temperature Physics and Engineering
of the National Academy of Science
of Ukraine
Department of Transport Properties of
Conducting and Superconducting
Systems
47 Nauky Avenue, 61103, Kharkiv,
Ukraine

E-mail: Mirzoiev@ilt.kharkov.ua

Research interests

Transport properties of low dimensional conducting systems at low temperatures and high magnetic fields.
Quantum effects in nanosystems based on: silicon, carbon and bismuth.

Technical skills

- Working with 4He evaporation cryostats (down to T~1.5 K).
- Working with high magnetic fields up to 9 T.
- Working with vacuum equipment.
- Measurement hardware programming.
- Creating of software for experimental data processing.
