

## CURRICULUM VITAE

Mariia SHCHERBYNA

Born: 11.12.1958, Kharkiv, USSR

Family status: married, 2 children.

### Address

Mailing: 34, Danilevskogo str., Apt. 13, 61058, Kharkiv, Ukraine

Office: 47, Lenin Ave., Institute for Low Temperature Physics, 61103, Kharkiv, Ukraine

e-mail: shcherbi@ilt.kharkov.ua

### Education

1976-1981 - Kharkiv State University, diploma with honours in mathematics

1981-1983 Graduate Studies, Inst. Low Temp. Physics, Kharkiv

*Candidate of sciences (PHD):* 1986, Inst. Low Temp. Physics, Kharkiv. Dissertation : "Some asymptotical problems of the statistical physics".

*Doctor of sciences (habilitation):* 1997, Inst. Low Temp. Physics, Kharkiv, Dissertation: "Mean field problems of statistical mechanics and random matrix theory".

### Employment

1983 – present – Institute for Low Temperature Physics of Ukrainian Ac.Sci, Kharkiv, (from Junior research fellow to Head of Department of Mathematical Physics)

2010-2021 - Professor of Mathematics in Karazin National University of Kharkiv

2014-2020 - Panel Member of the European Reserch Cauncil Starting Grants evaluation panel

08.2021-12.2021 – Chern Professor in the program Universality and Integrability in Random Matrix Theory and Interacting Particle Systems (MSRI, Berkelay)

2023-2024 - Member of School of Mathematics of Institute for Advanced Study (Princeton)

2024-2025 - Invited professor of Institute of Science and Technology of Austria (ISTA) (Klosterneuburg, Austria)

### Awards:

2003 Invited speaker of European Congress of Mathematics in Stockholm

2009 Prize named by M.Ostrogradskiy of National Academy of Sciences of Ukraine

2012 Elected as a corresponding member of National Academy of Sciences of Ukraine

2018 Invited speaker of International Congress of Mathematics in Rio de Janeiro

2018 State Prize of Ukraine in the Field of Science and Technique

2020 Medal of National Academy of Sciences of Ukraine "For Professional Achievements"

2021 Prize named by M.Lavrentiev of National Academy of Sciences of Ukraine

### Research interests

Spectral theory of random matrices, in particular, local eigenvalue distribution of big random matrices, methods of super symmetric integration, non hermitian random matrices, mathematical problems of statistical physics, neural networks and spin glass theories.

## **Invitations**

- Laboratoire de Physique Mathematique et Geometrie, Universite Paris-7, chercheur invite ( 1 month 1992, 3 months 1993, one month 1994, 3 months 1995, 3 months 1996)
- Facultat und Institut fur Mathematic, Ruhr Universitat, Bochum (1 month 1993, 1995, 1996, 1997)
- Mathematical Department of University "La Sapienza" of Rome (1 month 1991, 1993, 1994, 1995, 1996, 1997, 1998, 3 months 1999, 2001, 2002, 2003, 2004, 2005, 2006, 1 month 2008, 2011)
- Institute Henri Poincare (Paris) (3 months 2007)
- Mathematical Science Research Institute (Berkley, California) (1 month 2010)
- University of Toronto (1 month 2010)
- University of Marseilles (1 month 2013)
- Stony Brook University (1 month 2015)
- Program on QUANTITATIVE LINEAR ALGEBRA (IPAM, Los Angeles, 1 month 2018)
- Program "Universality and Integrability in Random Matrix Theory and Interacting Particle Systems" (MSRI, Berkeley, 4 month 2021)
- Invited researcher in University of Bielefeld (6 months 2023)
- Member of School of Mathematics of Institute for Advanced Study (Princeton, year 2023-2024)
- Invited professor in Institute of Science and Technology of Austria (ISTA) (Klosterneuburg, academic year 2024-2025)

## **International Conferences where I was an invited speaker**

- International Conferens in Stochastic Processes, Bonn, October 1994
- 5th European Symposium in Stochastic Analysis Bonn, Germany 1994.
- International Conference on Stochastic Methods in Statistical Mechanics, Finances and Biology , Bielefeld, Germany, 1996,
- International Conference on the Disordered Spin Systems, Berlin, Germany 1996
- International Workshop in Statistical Physics Bielefeld, Germany, 1996
- Satellite Colloquium of STATPHYS 20 "Mathematical Results in Statistical Mechanics". Marseille, 1998 .
- International conference "Mathematical aspects of Statistical Mechanics". Marseille, 2002.
- International conference "Physics and Mathematics of Large N limit in Gauge Theory" Montreal, January, 5-9 2004
- 4 European Congress in Mathematics. Stockholm, June, 27- July 03, 2004 invited ECM speaker.
- International conference "Mathematical Physics of Spin Glasses", Cortona, June 27-July 2 2005.
- Workshop "Limit Theorems and Characterization problems in Statistics and Probability" Bielefeld: December 5-7 2005
- International Conference on Costractive Complex Approximation Theory. Ambleteuse, France May,25-30, 2006.
- Luminy conference on random matrices. Marseille, France: October,30- November,03, 2006,
- Workshop "Random matrices: probabilistic aspects and applications", Bonn, Germany, January 14-18, 2008
- Workshop: Disordered Systems: Random Schrodinger Operators and Random Matrices March 23rd - March 29th, 2008
- Workshop on High-Dimensional Phenomena in Mathematical Physics, Paris-Marne-la-Valle, June 2-6, 2008
- Workshop "Disordered systems: spin glasses", Montreal, June 8-13 2009
- International conference "The State of Geometry and Functional Analysis" Tel-Aviv, June 24-30, 2009
- International conference Asymptotic Geometric Analysis, Euler International Mathematical Institute, St. Petersburg, Russia, June 30 - July 4, 2010

- Workshop Random Matrix Theory and its Applications, MSRI, Berkeley, USA, September 13-17 2010
- Workshop Connections for Women: An Introduction to Random Matrices, MSRI, Berkeley, USA, September 20-21 2010
- Workshop on Geometric Probability and Optimal Transportation, Toronto, October 25-29, 2010
- Workshop "Vector equilibrium problems and their applications to random matrix models" AIM, Palo Alto, USA April 2012 .
- Workshop "Mathematics and Physics of Disordered Systems" Cambridge, UK, September 2012
- Random Matrix Workshop / Paris-Telecom, October 2012
- Mathematical Physics of Disordered Systems. Hagen, Germany, May 2013
- Advanced School and Workshop on Random Matrices and Growth Models, Treste, Italy September 2013
- Memorial conference dedicated to the memory of academician Andrei Aleksandrovich Gonchar November 25-26, 2013, Steklov Mathematical Institute of RAS, Moscow
- Workshop on Random Matrices and Random Systems. IAS, Princeton, April 1- 4, 2014
- Conference "Mathematical Physics: Theory and Applications" 18-20 Sept Rome, Italy
- Workshop "Random Matrices and Their Applications ", 5-9 January, 2015, Hong Kong
- Workshop "Random and Other Ergodic Problems" 22-26 June, 2015, Cambridge
- CIMPA Summer School in Buenos Aires (July 6-17, 2015) (invited lecturer)
- Conference on Geometric Functional Analysis Edmonton, 15-20.05.2016
- Workshop "Probability and asymptotic analysis in strongly coupled systems" 11-16 January, 2016, Bonn
- Summer School "Spectral Theory, Differential Equations and Probability" Mainz, 05-15.09.16
- Conference "Classical and Quantum Motion in the Disordered Environment" December 18-22, 2017, Queen Mary University of London
- Workshop Random Matrices and Free Probability Theory (IPAM, UCLA, Los Angeles) May 14 - 18, 2018
- International Congress in Mathematics August, 1-9, 2018 Rio de Janeiro
- Workshop "From Many Body Problems to Random Matrices" BIRS, 4-9 August 2019
- School and Workshop on Random Matrix Theory and Point Processes, Trieste, 23-28.09.2019
- Conference "Random Schrödinger operators, and related topics" Florence, 17-21.02.2020
- Workshop: Universality and Integrability in Random Matrix Theory and Interacting Particle Systems, Berkeley, 20-24.09.2021
- Conference "Renyi 100" Budapest, Hungary, 20-24.06.2022 (plenary speaker)
- Meeting "Disordered Systems Days- II", Kings College of London 10-12.06.2024,
- Conference "Representation Theory and Probability" Leipzig University, 23-27.10.2024
- Trilateral International Scientific Meeting (UK - Poland - Ukraine) Warsaw, 14-16.10.2024 (organizer)
